# TECHNICAL DATA

## MA – L22

**COMPOSITION** : *Aliphatic Fatty Acid Ester.*

### PROPERTIES

### TYPICAL

Appearance	White Pastilles
Specific Gravity, g/cm <sup>3</sup>	0.95
Dropping Point, °C	60
Storage Stability	At least 2 years under normal conditions.
Packaging	25kg PE bag

### APPLICATION

**MA-L22** is a processing aid that improves incorporation of filler and release of most rubber compounds. Due to its low volatility, **MA-L22** can be used in high temperature cure.

**MA-L22** shows good plasticizing properties, which leads to reduction of injection pressure in the mould filling process and prevents scorch.

**MA-L22** is highly effective in polar compounds, e.g. NBR, HNBR, to improve flow and release. It can be used at very low dosage.

Recommended Dosage:

1 – 5 phr
