# TECHNICAL DATA

## MA – L42

**COMPOSITION** : Blend of Fatty Acid Derivatives

### PROPERTIES

### TYPICAL

|                                     |   |
|-------------------------------------|---|
| Appearance                          | Beige / White Pastilles                   |
| Specific Gravity, g/cm <sup>3</sup> | 0.93                                      |
| Dropping Point, °C                  | 88  |
| Storage Stability                   | At least 2 years under normal conditions. |
| Packaging                           | 25kg PE bag                               |

### APPLICATION

**MA-L42** is a processing additive that is very effective for all applications of elastomers and provides very good lubricating effects to improve flow and mould release.

**MA-L42** is highly effective in EPDM compound.

Recommended Dosage:

2 – 5 phr
