TECHNICAL DATA

MA – PR01

COMPOSITION : *Mixture of Fatty Acid Soaps and Amides.*

PROPERTIES

TYPICAL

Appearance	Beige Pastilles
Specific Gravity, g/cm ³	0.98
Dropping Point, °C	104
Storage Stability	At least 2 years under normal conditions.
Packaging	25kg PE bag

APPLICATION

MA-PR01 contains an amide that is needed for hydrogen bonding and can therefore act as a coupling agent between polymer and filler.

MA-PR01 is effective in blending and dispersing of highly filled systems, leading to a more homogenous mixing in beginning stage. At processing conditions it is an effective lubricant for polyolefin like PVC, PS and ABS.

Recommended Dosage:

0.25 – 1%
