TECHNICAL DATA

MA – PR02

COMPOSITION : *Fatty Acid Ester Derivatives*

PROPERTIES

TYPICAL

Appearance	White Pastilles
Specific Gravity, g/cm ³	1.1
Ash Content, %	Max 21
Dropping Point, °C	60
Storage Stability	At least 2 years under normal conditions.
Packaging	25kg PE bag

APPLICATION

MA-PR02 is a processing aid for plastics, which is used to improve the general compound processing without significantly affecting physical properties.

MA-PR02 acts as an efficient blending and dispersing agent for powdered materials and helps to shorten mixing time by faster filler incorporation.

MA-PR02 also works very well as an internal release agent in injection and transfer molding which prevents sticking of compounds to rolls and rotors. Mould release is improved.

Recommended Dosage:

1.0 – 3.0%
